SUMMARY

Product focused Legal professional working at intersection of law and technology, specializing in private credit documentation and legal data structuring at CredCore. Combines deep domain expertise in complex financial instruments with hands-on technical execution, building automated document-parsing AI workflows (n8n, Gemini API). Bridges regulatory logic with product execution by designing legal data taxonomies, authoring comprehensive PRDs, and developing working dashboard prototypes. Seeking APM opportunities to translate complex business requirements into intuitive, AI-powered digital experiences.

SKILLS & CORE COMPETENCIES

- **Product:** User Research, PRD Authoring, Product Discovery, Metrics & Analytics, Roadmapping, Interactive Prototyping, Vibe Coding (Anti-Gravity), AI-Assisted Design (Claude, Gemini), UI/UX Wireframing, SQL/Excel.
- **Legaltech & Operations:** Legal Data Taxonomies, Document Parsing AI, Contract Lifecycle Management (CLM), Data Extraction & Structuring, Process Optimization.
- **Fintech & Private Credit:** Private Credit Documentation, Financial Covenants, Risk Assessment & Mitigation, Compliance Obligations, Deal Structuring.
- **Commercial & Corporate:** Contract Drafting & Vetting (MoUs, NDAs, Service Agreements), Legal Due Diligence, Corporate Compliance, Intellectual Property (IPR).

PRODUCT PROJECT & PORTFOLIO

Top Fellow - NextLeap Product Management Fellowship (2026)

- **Google Photos (AI Native Graduation Project)** | *PRD & Live MVP* |
  - **Problem:** Users experience high search failure rates due to chronological metadata mismatch, such as third-party platforms overwriting capture dates with transfer dates. This breaks the retrieval process even when users can accurately recall the specific episodic context of a memory.
  - **Prototyping & Solution:** Engineered and deployed a live functional web MVP using Gemini AI to execute an episodic inference layer. The logic dynamically re anchors photos to true life events based on visual intent and contextual clustering, successfully overriding broken EXIF dates.
  - **Metrics & Strategy:** Decomposed the behavioural retrieval funnel via user surveys to pinpoint a critical 44% intent matching bottleneck. Established Episodic Retrieval Success Rate (ERSR) as the North Star metric and utilized the RICE framework to prioritize episodic AI anchoring over brittle static heuristics.

- **AI Contract Review Copilot** | *LegalTech PRD & Interactive Prototype* |
  - **Problem:** In-house legal teams face severe contract turnaround bottlenecks during repetitive first-pass contract reviews, creating operational drag while trying not to miss uncapped liabilities or material deviations.
  - **Prototyping & UX:** Designed and published a functional web dashboard prototype featuring a split-pane review interface integrating automated clause classification, playbook deviation flags, side-by-side source text, and one-click redlining.
  - **Product Strategy & Guardrails:** Defined core workflow logic separating model confidence from risk severity to eliminate alert fatigue, targeting a 40% reduction in median first-pass review time with a $\geq$ 98% critical-risk recall guardrail.

- **ClariFund: SME Loan Decision Workspace** | *FinTech PRD & Live MVP* |

- **Problem:** Approved SME borrowers experience decision paralysis and drop-off due to hidden upfront deductions, opaque APRs, and buried contractual covenants (e.g., personal guarantees, DSCR ratios).
- **Product Scope & Solution:** Authored an end-to-end PRD for an 8-step post-approval decision layer featuring real-time cost reconciliation (gross vs. net disbursal), plain-language obligation breakdowns, and authenticated guest access for borrower CAs and co-directors.
- **Metrics & Guardrails:** Established Informed Decision Rate as the North Star metric, mapped telemetry for offer validity windows, and structured risk guardrails balancing responsible declines with 30/60/90 DPD credit quality.

PROFESSIONAL EXPERIENCE

Legal Analyst, CredCore, Pune **Nov 2025 - Present**

- Deconstructed 200 + complex private credit agreements (including bespoke facilities, intercreditor terms, and amendments) to extract and map critical financial covenants, pricing mechanics, and payment waterfalls into structured data schemas.
- Reviewed and validated data extracted by junior analysts, ensuring accuracy and completeness across high-value transactions.
- Provided legal interpretation on covenants, events of default, PIK provisions, and representations & warranties; flagged risk anomalies and operational inefficiencies.
- Served as subject matter expert for Legal, Product, and Operations teams, translating complex documentation into clear, actionable insights for strategic decision-making.
- Drove process optimization by streamlining data extraction workflows, building legal data taxonomies, and collaborating with tech teams on document-parsing tools.
- Extracted and codified borrower compliance obligations embedded within financial instruments, ensuring accurate representation of contractual terms.

INTERNSHIP EXPERIENCE

- **Commercial Contracting & Corporate**: Drafted and structured high-value B2B commercial agreements (MoUs, NDAs, Service Agreements, Employment Contracts) and conducted IP research across Trademarks, Patents, and Copyrights. (ADReS Now! | Rights & Marks).
- **Real Estate & Title Due Diligence**: Managed legal processes for court/bank-auctioned properties, executing title verification, due diligence, and property documentation digitization. (TruEstate / IQOL Tech)
- **Regulatory & Dispute Research:** Conducted cross-border dispute research for e-commerce, consumer protection, and arbitration frameworks; authored briefs for consumer and corporate disputes. (NLSIU Bangalore | Sampat's Law Office | High Court/Dist. Research)

ACADEMIC QUALIFICATIONS

BBA LL.B. (2020 – 2025) | IFIM Law School, Bangalore, Affiliated to **Karnataka State Law University**

POSITIONS OF RESPONSIBILITY

- Convenor of Internship and Placement Committee at IFIM Law School [2024]
- Co-Convenor of Placement Committee at IFIM Law School [2022-2024]
